WORK EXPERIENCE

JANUARY 2018   PRESENT

UW Madison's Arts Institute
Assistant Graphic Designer   *Madison, WI*

- Work with a several different art directors and teams to organize and design content encouraging people to attend Arts Institute events.

- Create content for a variety of different publishers; making sure all creations meet specific printers' requirements, as well as mainting aesthetically pleasing designs.

- Practice independence and organization in order to track and meet a variety of deadlines with varying levels of priority across different departments and teams.

MAY 2017   PRESENT

Felly's Flowers
Sales Associate   *Madison, WI*

- Create aesthetically pleasing signage, primarily in chalk, to both decorate the store and encourage sales of flowers and giftware.

SEPTEMBER 2015   MAY 2017

Epic Systems
User Experience Designer   *Verona, WI*

- Acted as lead designer, as well as both design reviewer and consultant, on 5 to 10 simultaneous projects, with pressing daily, weekly, and monthly deadlines.

- Executed user centered design principles to effectively use graphical and typographical cues to create software that handles complexity with elegance and whimsy.

- Planned and facilitated a variety of usability studies, from eye-tracking to user interviews, which addressed and confirmed specific design decisions.

- Collaborated with designers, physicians, and other subject matter experts to create and refine a design language that will support patient safety.

- Created compelling graphics and presentations to showcase the software to current and prospective customers.
